Homecoming week was a huge success.

800 students attending the dance.

Boys Golf Team will be heading to state tournament on Oct. 7th.

Buses are still an issue. There are not enough drivers for the buses we need. Ron has spent \$12,000 on charter buses the first six weeks of school.

**Gala--**Goal \$50,000-\$70,000

Ron has two sponsors committed to \$6,000 to help cover the venue cost and has another meeting this week which he will hopefully get the remaining \$4,000 needed to cover the entire venue cost. Coaches have cut back on fundraising this year so he will ask them to support the Gala by each team (18 teams) donating a basket. Ron helped the coaches out this year with the basic fee for Hudl.

**Turf Field**

They have started working on the turf field. It may be finished by the first of November.

Thunder Logos will be put in the endzones and middle of the field.

-300 person bleachers will be put in place, depending on space visiting bleachers will be put closest to the parking lot

**High school track--**district making repairs and repainting lines

**Baseball field--**field is too short

They are looking into how to fix this issue. One option is to move the fence. Dugouts need to be updated

**Tennis Courts**

DCC has not received the money from the bond to build the new tennis courts. There is about 4 million dollars set aside for upgrades to the D20 stadium, Pine Creek's stadium and tennis courts.
